**Subject:** Comment Letter - Proposed Water Recycling Policy

12/4/07 Bd. Mtg.  
**Water Recycling Policy**  
Deadline: 10/26/07 Noon

Tam Doduc, Chair, and Members  
State Water Resources Control Board  
P.O. Box 100  
Sacramento, CA 95812-0100

ATTN: Jeanine Townsend, Acting Clerk to the Board,

SUBJECT: Comment Letter: Water Recycling Policy

Dear Chair Doduc and Members of the Board:

The Marin Municipal Water District (MMWD) very much appreciates the members of the State Water Resources Control Board for the consideration, interest, and leadership they have demonstrated to address the issues that have served to discourage the existing use and further expansion of recycled water - California's best means of supplementing an over-extended water supply and the most effective way to minimize the discharge of wastewater.

As an active member of the 2002 Water Recycling Task Force, the MMWD urges you to support all of the constructive steps identified in the Task Force Report.

In addition, instead of communicating our own list of viewpoints, we have worked in concert with the WaterReuse Association to articulate views that address water recycling issues of statewide importance as well as those in our little corner of California. MMWD whole heartedly supports and endorses the positions of WaterReuse and pledges to help the members of the State Water Resources Control Board to turn these concepts into policy.

Thank you for your consideration.

Robert S. Castle, P.E.  
Water Quality Manager  
Member, 2002 California Recycled Water Task Force

and

Paul Helliker, General Manager MMWD
